(TWO-WAY TIE)

Här & där, då & nu

Norrköpings stadsmuseum, Norrköpings Visualisations- och Interaktionsstudio, Norrköping Sweden

Jury assessment;
"The jury agreed to nominate two projects, both of them use 3D technology in a very professional but still different way. Här & där och då & nu is an innovative use of digital media where past and present, knowledge and story telling are intertwined, arousing curiosity and a will for knowledge. Technologically advanced application has great potential and can be presented in different physical spaces and situations."
