BEST IMMERSIVE/AUDIO VISUAL INSTALLATION **nodem 03**
(TWO-WAY TIE)

The Great Collapse, 1687

Stiftelsen Stora Kopparberget / Center for Digital Interpretation, Falun Sweden

Jury assessment;

"The jury agreed to nominate two projects, both of them use 3D technology in a very professional but still different way.

The Great Collapse 1687 is an interpretative reconstruction of a historical event and a mine, inviting the audience to learn about and to experience the historical remains of mining in Falun."
