Nodem 03 Helsingborg 17-19 March 2003

INVITATION

Nordic Forum for Digital Communication

Have you recently employed or developed new media in your exhibitions or programmes? For instance, interactive multimedia displays, audioguides, handheld digital guides or physical installations? If so, you are very welcome to take part at Nodem!

Visions for Museums/Interactive Institute, together with the Swedish Museums Association, with support from the Nordic Council of Ministers, has initiated: Nodem - Nordic Digital Excellence in Museums.

Nodem is a new Nordic forum for exchange of experience and good practice, on the use of new digital media in communicating with visitors and audiences, at museums, galleries, heritage attractions, natural and science discovery centres etc.

The forum will be launched during Museiveckan, the annual Swedish Museums' week in Helsingborg, 17th to 19th March 2003. The event will consist of an exhibition of current and innovative examples of new museum media as well as presentations and panel discussions on the topic.

We hereby invite your organisation to take part in the event by presenting any of your current projects in this area. This will enable you to become nominated for Nodem's best digital project 2003. Send in information about your current project(s), in order to take part in the events.

Entries should be made on the separate form enclosed below, no later than 14th February 2003. Please indicate available Archive of the project. Please note that this is not an application for Museums' week.

Our hopes are you will find Nodem inspiring and interesting and wish to take part in the inauguration of the forum during the Museums' Week 2003!

Yours faithfully,

Gunilla Sundblad
