Nodem04 awards

Best digital application in category Web based / virtual applications:
Touch and Turn virtual library Interactive Web Viewer/ Macromedia Director : Touch & Turn / Sweden, Raketspel Interaktiva, 8 European partner libraries/archives

Jury's Commentary:
The Touch and Turn viewer is an innovative way to let web-users browse through a valuable manuscripts that usually are not availably to the general public and gives scholars and students easy access to explore a manuscript and learn how to read the original handwriting. It gives the feel you are actually browsing through the real thing.
www.touchandturn.com

Best digital application in category Portable/wireless application:
Vitlycke Digital guide GPS enabled PDA: Vitlycke Museum, Västra Götalandsregionen, INSITE INCENTIVE AB / Sweden

Jury's Commentary:
Vitlycke Digital Guide is a brilliant idea to guide travelers through big cultural heritage sites, like the World heritage site atVitlycke in Tanum. The portable nature connected with GPS navigation system helps travelers to navigate large outdoor sites. Multimedia e.g. sound, picture, maps and movies, enrich the tour and give the traveller more freedom to travel at his own speed.

Best digital application in category Large scale/immersive installation:
The Avesta Works - Verket Interactive installation : Avesta kommun, Interactive Institute- Smart studio, SNAP AB /Sweden

Jury's Commentary:
This representation of the blasting iron works gives different visitors a phenomenal and attractive experience as well through pedagogical as narrative layers. The use of augmented reality interface inside this old industrial iron plant, creates an excellent contrast between the declining industrial society and the rising information society.

Best digital application in category Stationary/fixed media:
Hofsstadir Archeology Multimedia Multimedia touchscreen station : Gardabaer Municipality, Gagarin ehf / Iceland

Jury's Commentary:
Hofsstadir Archeology Multimedia is something so rare as an outdoor interactive kiosk which contains great educational possibility and offers a rich visual experience to visitors at the venue.

Jury's special mention
Theatrical Masquerade Narrative - A proposal for the Verdi Museum
Lily Diaz-Kommonen and Mika Tuomola
Crucible Studio, Media Centre Lume & Media Lab
University of Art and Design, Helsinki

Jury's Commentary:
A special mention in the Awards for the wish of engaging visitors in the interpretation on site in imaginative, subtle ways, utilising augmented physical cultural and everyday objects as intuitiv interfaces for playful discovery of Verdi's life.
