Nodem 04 4-5 May, Helsinki, Finland

Program

» Finding your way to Kiasma

Tuesday, May 4th

Venue: Kiasma Theater, Kiasma Museum of Contemporary Art

09.00-10.30 Registration & coffee
Participants register to Wednesday's workshop or excursion
Show room open for arranging of exhibition

10.30-11.00 Opening / Welcome

11.00-12.00 *Nordic projects*, nominees in category 1:
web based/virtual application
-House of Love
-Finnish Museums on the Semantic web
-Rettsamfunnet

12.00-13.30 Lunch
(Exhibition/Show room open)

13.30-14.15 Nordic projects, nominees in category 1 continued:
web based/virtual application
-Tollundmanden
-Touch and Turn Virtual Library

14.15-15.00 Nordic projects, nominees in category 2:
portable/wireless application
-IDmessage: Mobile Stories
-Vitlycke Digital Guide

15.00-15.40 Nordic projects, nominees in category 3:
large scale/immersive installation
-The Avesta Works
-Face by Face

15.40-16.00 Coffee
(Exhibition/Show room open)

16.00-17.00 Nordic projects, nominees in category 4:
stationary/fixed media
-Baltic Connections
-Hofsstadir Archeology Multimedia

17.00 *First day conclusion*
(Exhibition/Show room open)

18.00-19.30 The City of Helsinki invites the participants for a buffet reception at the Old Court House, Aleksanterinkatu 20.

Wednesday, May 5th

Venue: Kiasma Theater, Kiasma Museum of Contemporary Art

09.00-09.30 *Inspiration session 1:*

"Cultural heritage information and digital technologies: designing for humans,"
Prof. Slavko Milekic, University of the Arts, Philadelphia, USA.

This presentation will provide an overview of the impact that the introduction of digital technologies made on the changing role of museums and cultural heritage institutions. Paradoxically, the new technologies may provide more natural ways of interacting with and dissemination of the cultural heritage information - from being able to 'feel' the artifacts to the applications that are aware of viewers´ emotions and interest.

09.30-10.00 Coffee
(Exhibition/Show room open)

10.00-10.30 *Inspiration session 2*
"Integrated Concepts: Storytelling based Edutainment Applications for Museums Authoring Tools, Interactive Run-Time Environments,"

Ph. D. Stefan Göbel, Zentrum für Graphische Datenverarbeitung, ZGDV, Germany.
Project examples: DinoHunter, GEIST, art-E-fact and Virtual Human.

10.30-11.00 *Inspiration session 3*
"Usability testing - an introduction to the basics and beyond"

Senior Consultant Julia Gardner, UNI-C, the Danish IT-center for Education and Research, Aarhus, Denmark.

What are the real challenges of user involvement and how can you change focus from testing mere user-friendliness to the analysis of usefulness.

App. 11.00~15.00 Chosen excursion or workshop
(please see below)

(12.00-13.00 Lunch)

15.00-16.00 Closing of the conference:
"The 2004 Nodem award winners are..."
Drinks & snacks.

Workshops & excursions to choose from:

***Workshop 1*: "Models of Interactions between Visitors and Objects"**

Slavko Milekic, University of Arts, Philadelphia, USA and Marjo

Mäenpää, University of Art and Design, Media Lab, Finland.

The workshop addresses the complexity of interaction between human beings and designed systems or objects. The workshop focuses especially on artifacts and museums. It is targeted to those who are interested in concept planning and composing new innovative ideas for museums. Workshop consists of short presentation and assignments in order to make quick concept planning of interactive production for museum audience.

Workshop 2: "Digital Guides for Museums: Providing Intellectual Access"

Christopher Bazley, Antenna Audio, UK.
This workshop looks at tour and content design strategies to enable greater intellectual access to museums and their collections. Drawing

greater intellectual access to museums and their collections. Drawing on the learning's from actual museum tour solutions, the class will focus on the best practice in the formulation of tour and content concepts, the de-sign of content elements including multimedia and interactive message, providing translations for visitors of different languages and abilities, and negotiating intellectual property issues. Parti-ci-pants will also be invited to bring their own experiences of digital media and collections manage-ment databases to the discussions in order to brainstorm solutions for integrating mobile digital tours into their own organizations.

Workshop 3: "Combining digital storytelling with user experience design."

Stefan Göbel, Zentrum für Graphische Datenverarbeitung, Germany.

Based on the Inspiration Session 2, various methods, integrated concepts and application examples for Storytelling based Edutainment applications are discussed. This include technical issues such as authoring tools, story models, story engines, run-time systems or interaction meta-phors as well as general issues and practical questions: Who is involved? How long does it take to "produce" a story? Which learning models are integrated? Which technical requirement (and costs) is necessary for museums? All these questions are discussed in the context of existing applications and projects, e.g. DinoHunter applications for the Senckenberg Museum in Frankfurt, Germany.

App. 11.00~15.00:

Excursion 1: Kiasma Museum of Contemporary Art

Excursion 2: Sanoma House, "Piste journalist simulator - practical experience of a journalist's daily work"

Excursion 3: Espoo City Museum

Excursion 4: Helsinki City Museum

Excursion 5: Sanoma House, "Piste journalist simulator - practical experience of a journalist's daily work"
Heureka, the Finnish Science Centre

Welcome!

Jyrki Simovaara & Minna Raitmaa, Kiasma

Halina Gottlieb & Helen Simonsson, v4m/Interactive Institute

Marja-Liisa Pohjanvirta, Finnish Museums Association
